 Mira Road East, Mira Bhayandar, India

SUMMARY:

Full Stack Developer skilled in both front-end and back-end development, focused on creating reliable and easy-to-use web applications.

Technical Skills:

- **Programming Languages** - Python, JavaScript, PHP
- **Frontend** - HTML5, CSS3, JavaScript
- **Backend** - Node.js, PHP
- **Database** - MySQL, MongoDB
- **Concepts** - Data Structure & Algorithms, Data Science, Data Visualization

EXPERIENCE:

Frontend Developer (Intern) - Tech2Edge | Aug 2024

- I developed the HAX SECURITY website using Bootstrap, HTML, CSS, and JavaScript, implementing responsive design for an optimal user experience across devices. Collaborated with the design team using Miro to ensure a consistent visual style. The site features courses focused on cybersecurity.
- I also developed the Frontend for an OTT platform that retrieves images, names, and titles from an API. I utilized JavaScript with async/await for data fetching and Bootstrap for implementing the sliders.
- During this short-term internship, I enhanced my skills in both Frontend and Backend development. I also utilized Figma and Miro for designing templates and effectively communicating with team members.

PROJECTS:

Clinic Management System (Final Year).....08/2023 - 01/2024

The Clinic Management System developed for my final year project is a web-based application created using PHP. It enables doctors to generate patient blood reports directly within the system, which stores the data in a MySQL Backend database. This setup ensures efficient management and retrieval of critical health information, contributing to improved clinical processes and patient care.

EDUCATION:

Bachelor of Science (Computer Science)

- Nagindas Khandwala College (Autonomous) 2021 - 2024 CGPA- 8.06

HSC / 12th STD

- Thakur College of Science & Commerce 2019 - 202168.83%

SSC / 10th STD

- SMT-P-K-Gangar Hindi Secondary School 2019.....66.60%
